## ABOUT US

WB Power is a leading supplier of EV chargers in China, committed to promoting the transition to clean and sustainable transportation. We offer a wide range of EV charging solutions for private end users and companies, including EV charging stations, portable EV chargers, EV charging cables, and connectors.

Our mission is to create a greener world by providing reliable and efficient EV charging services to our customers. With our high-quality products and excellent customer service, we strive to be your most trusted business partner in the EV industry.

## Some Compatible Vehicle Brands

**MEVOCO**  
MEDIUM VOLTAGE COMPONENTS

TOYOTA

TESLA

NISSAN

Audi

RENAULT

HYUNDAI

KIA

100<sup>+</sup>

Professional team

## Why Choose Us

Technology and products are core competencies. We are a total-solution supplier of hardware and software, as well as one-stop customization

### High-quality products

Our charging stations are manufactured with the highest quality materials and components, ensuring durability and reliability for years to come.

### Customizable solutions

We offer a wide range of charging stations that can be customized to meet the specific needs of your business or organization, including different power levels, charging speeds, and connectivity options.

### Competitive pricing

We offer competitive pricing on all of our charging stations, making it easy for businesses of all sizes to invest in sustainable and cost-effective charging solutions.

### Exceptional customer service

Our team is dedicated to providing exceptional customer service, from initial consultation to ongoing support and maintenance. We are always available to answer questions and provide assistance whenever you need it.

# Enterprise qualification

Computer software copyright  
Registration certificate

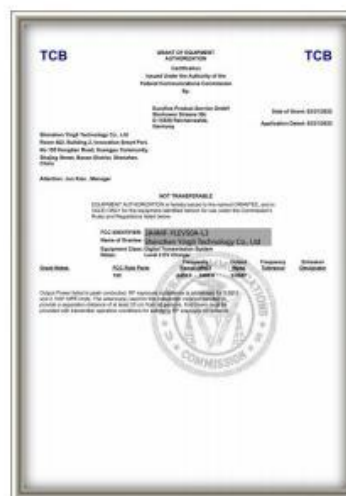

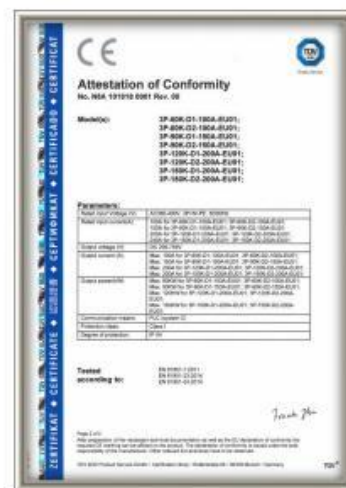

Tested by multiple authorities

Invention patent

Insurance

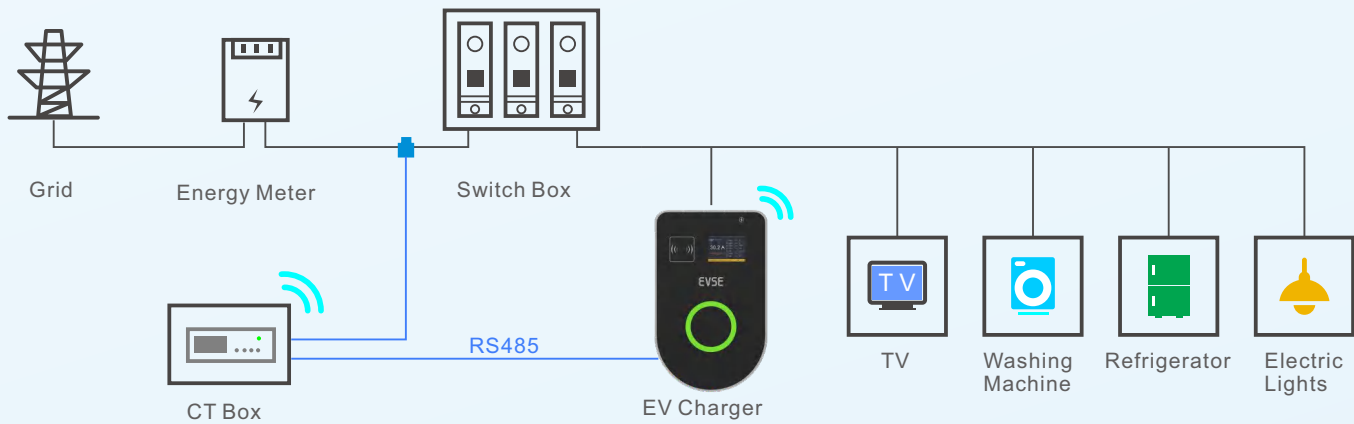

# Our solutions for home use

## Dynamic Load Balance

Dynamic Load Balance is a smart charging feature which balances the distribution of the total available power between chargers and other loads within the building in real time. It not only protects appliances, but also ensures EVs are fully charged at the lowest cost.

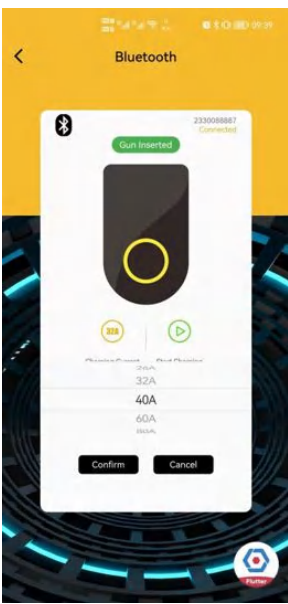

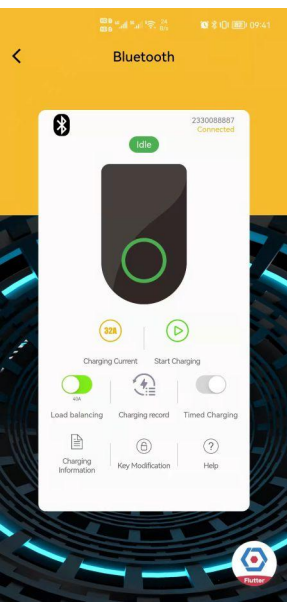

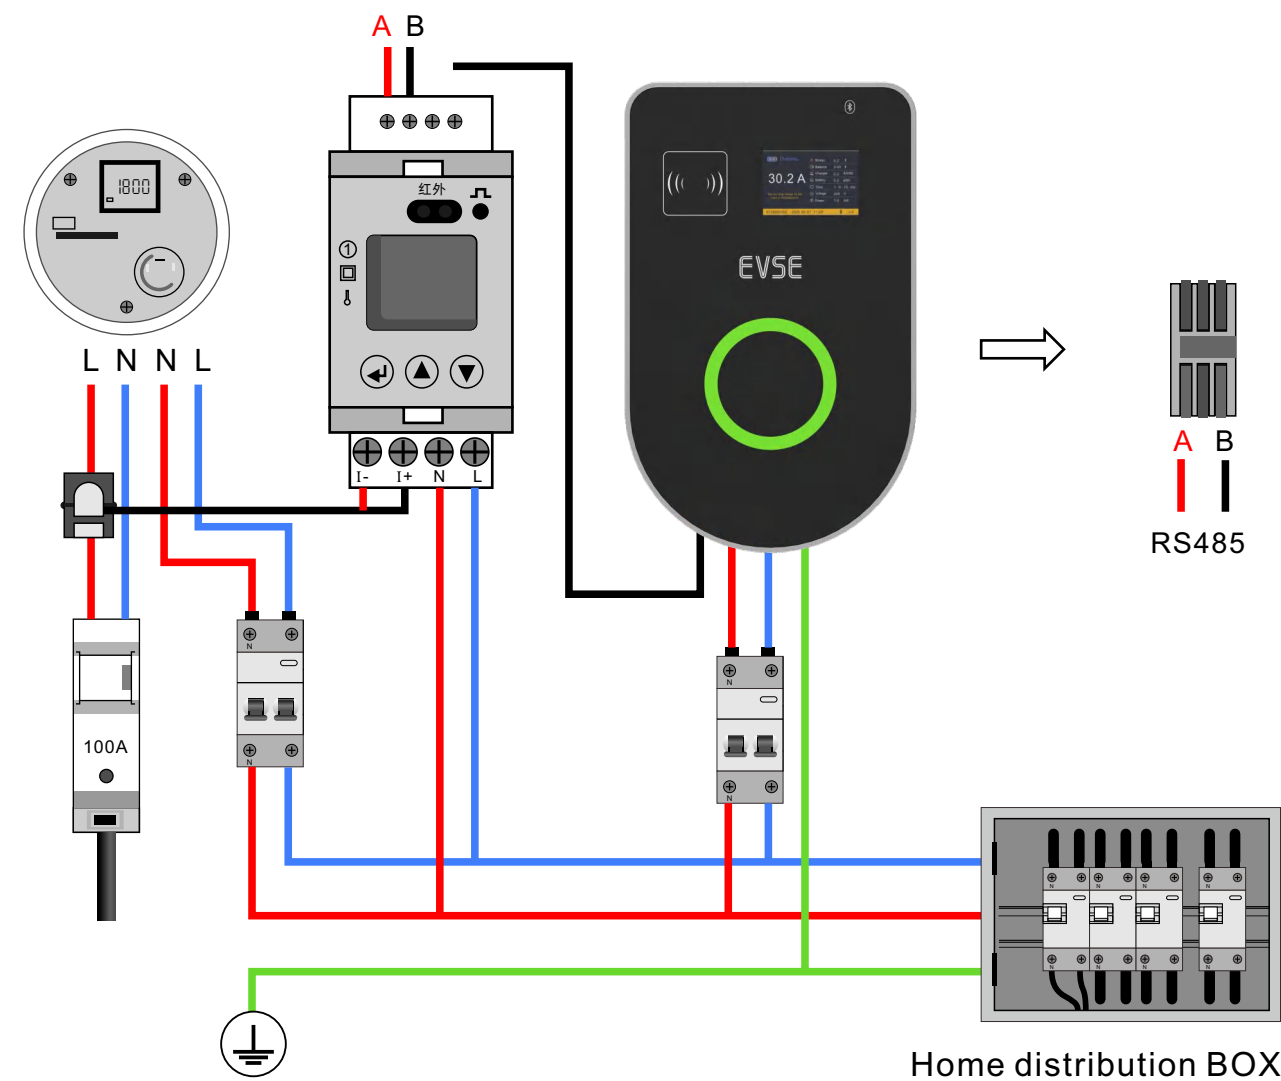

CT box monitors the total energy consumption and reports to the management system. The system controls the charging power of each individual charger automatically to avoid overloading when chargers and other loads are being used simultaneously.

## Static Load Balance

Static Load Balance is a smart charging feature which balances the distribution of the total available power for multiple chargers at a specific location. It enables you to set a maximum power for multiple chargers in the management system and distribute the charging power evenly between the individual active chargers.

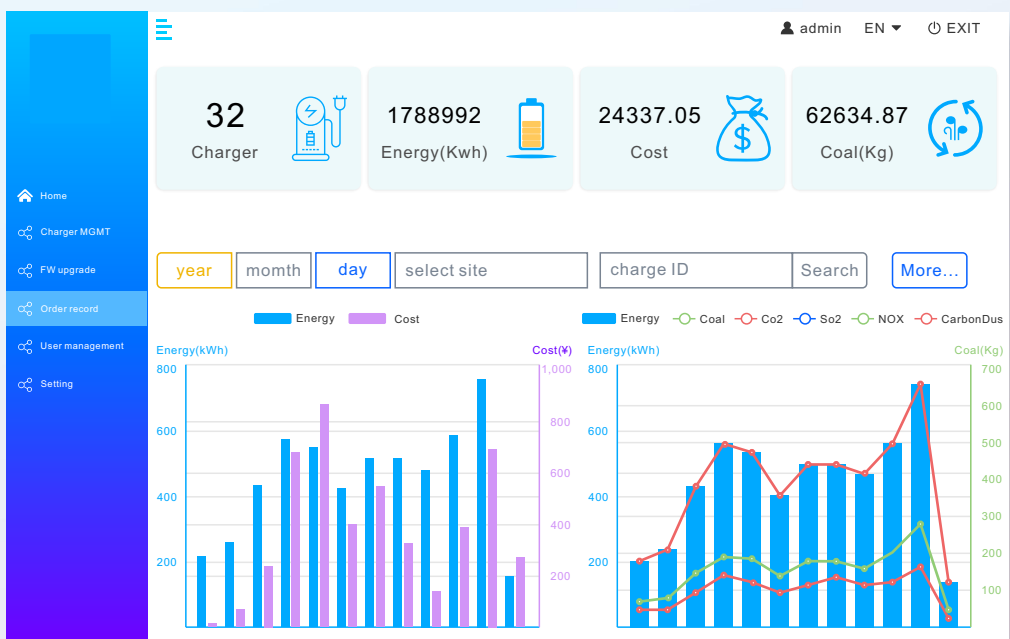

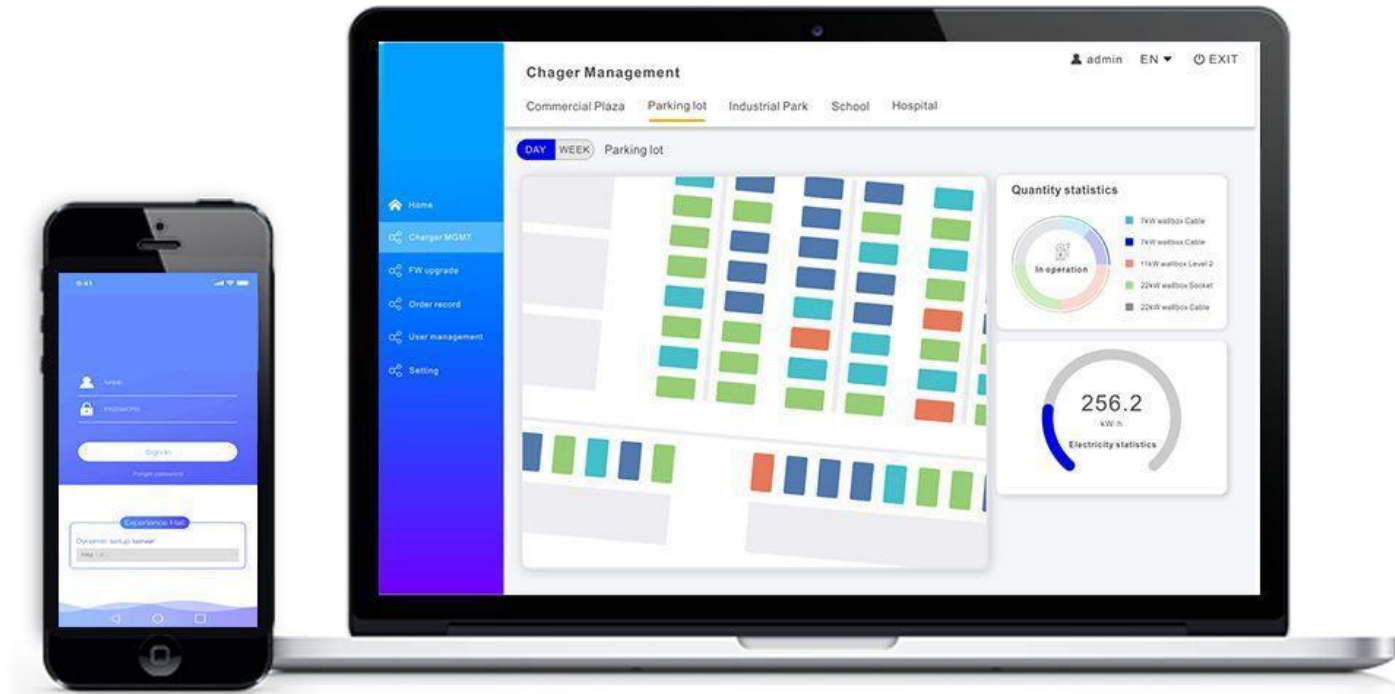

Load balance helps you to protect the local grid within the capacity limit in peak hours of electricity consumption. EVs can charge with maximum power when possible, but the charging power will drop as more EVs begin to be charged simultaneously. For example, the parking lot has a maximum of 32 A available. When the first EV charges, it charges at 32 A – the maximum capacity. When more EVs start charging, the charging capacity will be distributed evenly over the EVs

# Our solutions for public

We provide everything that's needed to build a charging business, from charging facilities to customer services and smart energy management solutions. You can either manage your own network of charging stations or provide the service for other charger operators. All solutions are white-labelled and can be customized to meet your customers' needs

# Portable EV Box

## Secure and Safe

Type A+DC 6mA leakage protection  
Over temperature protection  
High protection grade up to IP65

## Friendly Interface

OLED Display  
Current can 8A,10A,13A,16A,20A,32A,adjustable

## High compatibility

Fully compatible with all ev in the market

SAE1772 Type 1

Schuko Plug

NEMA6-20P Plug

NEMA Plug

Blue CEE

IEC62196-2(Type2)

Model	WEV035K-P035		WEV7K-P7
Technical features			
Charging capacity	Up to 3.5KW		Up to 7KW
Input/Output power	230VAC±20%, 50/60Hz, 8A-10A-13A-16A adjustable, 1-phase		230VAC±20%, 50/60Hz, 8A-16A-20A-32A adjustable, 1-phase
RCD	30Ma RCD Type A and DC 6Ma RCD function		
Standby power	<2W		
Measuring accuracy	1%		
User interface	LED , OLED , Select button		
Certificate/Compliance	CE/IEC61851-1,IEC61851-22,SAEJ1772		
Charging Interface	5M cable, Type2 Plug		
Power Cord Plug	Schuko/NEMA6-20P	NEMA14-50/Blue CEE	
Physical properties			
Protection	IP65,IK10,		
Special Protection	Temperature sensor and plug a dapter		
Cooling	Natural cooling		
Operating temperature	-30°Cto+55°C		
Humidity	Max.95%(non-regulating)		
Product Dimensions	210*88*50(L*W*H)mm		
Package Dimension	350*320*60(L*W*H)mm		
Net Weight	2.02Kg	2.5Kg	
Gross Weight	2.25Kg	2.7Kg	

# EV Wallbox with cable

WEVC 2017E /WEVC 2017U (3.7KW-22KW)

Product dimension

- Compact and Beautiful design**  
Scientific and technological appearance design, simple and practical, well-integrated.  
Modular design of functions can flexibly create exclusive configurations for different needs of users.
- Easy to Operate**  
Users can use different charging methods according to different scenarios: charging while inserting, starting and stopping by swiping cards, connecting mobile phones to APP, so as to prevent others from using your charger.  
Friendly human-computer interaction interface, simple operation procedure, so that gives users confidence every time when charging.
- Safety and Durable**  
DC 6mA+Type A AC 30mA protection  
Excellent waterproofing level up to IP55  
It has flame retardant property, moistureproof, mildew proof and salt spray proof.
- Innovativeness**  
simple installation approach, blind installation positioning.  
low maintenance, Automatic fault diagnosis Easy to Maintain, Front door operation and maintenance.

	Model	WEVC 2017E Series		WEVC 2017U Series
	For	Europe		North America
Power Input	Input Type	1-Phase	3-Phase	1-Phase
	Input Wiring Scheme	1P+N+PE	3P+N+PE	1P+N+PE
	Rated Voltage	230VAC±10%	400VAC±10%	L2:230VAC±10% or L1:110VAC±10%
	Rated Current	16A or 32A		
	Grid Frequency	50Hz or 60Hz		
Power Output	Output Voltage	230VAC±10%	400VAC±10%	230VAC±10% or 110VAC±10%
	Maximum Current	16A or 32A		
	Rated Power	3.7kW or 7.4kW	11kW or 22kW	3.7kW or 7.4kW
User Interface	Charge Connector	Type 2 Plug		Type 1 Plug
	Cable Length	5m or Optional		
	LED Indicator	Green/Blue/Red		
	LCD Display	4.3 Inch Touch Color Screen(Optional)		
	RFID Reader	ISO/IEC 14443 RFID Card Reader		
	Start Mode	Plug&Charge/RFID Card/APP		
Communication	Backend	Bluetooth / Wi-Fi /Cellular(Optional) / Ethernet(Optional)		
	Charging protocol	OCPP-1.6J		
Safety and Certification	Energy Metering	Embedded Meter Circuit Component With 1% accuracy		
	Residual Current Device	DC 6mA+Type A AC 30mA		
	Ingress Protection	IP55		
	Impact Protection	IK10		
	Cooling method	Natural Cooling		
	Electrical Protection	Over/Under Voltage Protection,Over Current Protection, Short Circuit protection, Over/Under Temperature Protection,Lightning Protection,Ground Protection		
	Certification	CE		
	Certification and Conformity	IEC61851-1,IEC62196-1/-2,SAE J1772		
Environment	Mounting	Wall-mount/Pole-mount		
	Storage Temperature	-40°C - +85°C		
	Operating Temperature	-30°C - +50°C		
	Max. Operating Humidity	95%, Non-condensing		
	Max. operating altitude	2000m		
Mechanical	Product Dimension	270mm*135mm*365mm (W*D*H)		
	Package Dimension	510mm*350mm*280mm (W*D*H)		
	Weight	5kg(Net ) / 6.7 kg(Gross)		
	Accessory	Cable Holder,Pedestal(Optional)		

# EV Wallbox with cable

WEVC 2201E /WEVC 2201U (3.7KW-22KW)

Product dimension

- Wonderful and Modern design**  
The appearance design has modern sense, simple and practical, perfect integration.  
Function modular design, flexible to create exclusive configuration for different needs of users.
- Easy to Operate**  
Different charging methods can be used according to different scenarios: charging by inserting, starting and stopping by swiping, mobile phone blue APP, in order to prevent others from using your charger.  
Friendly human-computer interaction interface, simple operation process, so that every charge is full of confidence.
- Safety and Durable**  
DC 6mA+Type A AC 30mA protection  
Excellent waterproofing level up to IP55 .  
Flame retardant, moisture-proof, mildew proof, salt spray.  
It can adapt to different climates around the world, making your charger more durable.
- Innovativeness**  
The installation method is extremely simple, blind installation positioning.  
low maintenance, Automatic fault diagnosis Easy to Maintain, Front door operation and maintenance.
- RELIABLE**  
TUV and CE certification, equipment has passed strict testing and inspection, recognized by international organizations.  
In line with a number of global standards, reliable quality is trustworthy.  
MID certified electricity meter.

MINI DC Series

WEVC 3401E /WEVC 3401U (30KW-40KW)

High efficiency

High-power DC output, fill your car up quickly, make your trip more smooth.  
Up to 98% power factor, up to 95% charging efficiency, reduce energy waste, economic and environmental protection.

Excellent adaptability

Strong adaptability to application environment: it can be installed outdoors or indoors.  
Optional installation mode: wall mounting or column mounting.  
High car charging compatibility: 150-1000V voltage output of different levels, to meet the needs of different types of vehicles.

Intelligent control

Equipped with international general OCPP-1.6 communication protocol, can be connected to the user's background management platform.  
Can charge by RFID swipe card, calculate charging fees for users to provide commercial functions.  
Touch screen control, convenient for maintenance personnel.  
Bluetooth/wi-fi/Ethernet / 4 G a variety of communication methods available for selection.

All-round security protection

Provide users with safe charging experience we have voltage, current, temperature, grounding, lightning, leakage protection and other electrical protection to ensure the normal use of users.  
The product reached the IK10 protection level, and passes the strict safety test before leaving the factory to ensure the safety performance of each product.

# MINI DC Series

20KW-30KW-40KW the best charging station  
For EV fast charger

## Friendly interface

7-inch touch screen LCD and ring LED offer good user display requirements for charging.

## Simple control

It is easy to control on and off through the Bluetooth function of the mobile phone APP and RFID function.

## Fast and Safety

40KW CCS type 2 plug,more efficient charging  
IP54 protection level for outdoor installation.

## Wide application

Compliant with OCPP 1.6 and above enables it to connect to the global EV charge management platform without additional integration and matching.

Super DC Series

WEVC 3017E /WEVC 3017U (60KW-240KW)

Product dimension

- High efficiency**  
High power DC output, the maximum power is optional 240kW, which can improve charging efficiency and alleviate users' anxiety when charging. one charger with two plugs, intelligent distribution of single and double plugs in different scenarios of power output, full use of each kilowatt to reduce waste.
- Excellent adaptability**  
Strong adaptability to the environment: it can be installed outdoors and indoors. High car charging compatibility: 150-1000V voltage output of different levels, to meet the needs of different types of vehicles.
- Intelligent control**  
Quipped with international general OCPP-1.6 communication protocol, which can be connected to the user's backstage management platform. It can swipe by RFID to charge and calculate charging cost to provide commercial functions for users. Touch-screen control provides convenience for maintenance personnel. Bluetooth/wi-fi/Ethernet / 4G a variety of communication methods available for selection.
- All-round security protection**  
Provide users with safe charging experience, we have voltage, current, temperature, grounding, lightning, leakage protection and other electrical protection, to ensure the normal use of users. The product has the IK10 protection grade, and passes the strict safety test before leaving the factory to ensure the safety performance of each product.

# Energy storage series

## WALL MOUNT

W-storage is designed to be mounted as an aesthetic display on any indoor wall in your home or business.

## SLEEK

Low profile and customizable with LED lighting.

## APP CONTROLLED

Mobile app gives you visibility and control over your energy usage.

## SCALABLE

W-storage is expandable through supplemental Panel+ units. The more units you add, the more resilient your power becomes.

## SMART

Automatically stores energy when electricity is cheap and discharges power to any circuit in the house when the price rises, thereby lowering power bills.

## SAFE

Advanced management system can detect adverse events, such as overcurrent and ground fault, and safely disconnect itself.

- Rated current: 16A/32A
- Operation voltage: 250V/480V
- Insulation resistance: >500MQ(DC500V)
- Contact Resistance: 0.5mQ Max
- Operation voltage: 250V/480V
- Withstand voltage: 2000V

Mechanical Properties

- Mechanical life: no-load plug in/out >10000 times
- insertion force: 45N<F< 100N

Environmental Performance

- Operating temperature: -30°C- + 50°C

Applied Materials

- Case material: thermoplastic, flame retardant grade UL94 V-0 Terminal Copper alloy, silver plating

Rared current	Cable specification	Remarks
16A /Single phase	3X2.5MM²+2X0.5MM²	
16A/Three phase	5X2.5MM²+2X0.5MM²	Shell color: black
32A/Single phase	3X6MM²+2X0.5MM²	Signal lamp: optional, Lock optional
32A/Three phase	5X6MM²+2X0.5MM²	

Type1

Electrical Performance

- Rated current:16A/32A/40
- Operation voitage:110V/240V
- Insulation resistance:>500MQ(DC500V
- Contact Resistance:0.5mQ Max
- Terminal temperature rise:<50K
- Withstand voltage:2000V

Mechanical Properties

- Mechanical life:no-load plug in/out >10000 times
- insertion force:45N<F< 100N
- Impat of external forcexan afford IM drop

Environmental Performance

- Operating temperature:-30°C- + 50°C

Applied Materials

- Case material: thermoplastic,flame retardant grade UL94 V-0 TerminakCopper alloy,silver plating

Rated current	Cable specification	Remarks
16A	3X2.5MM²+1X0.75MM²TPU,Q10.5/TPE,Q13	Shell color: black/white optional
32A/40A	3X6MM²+1X0.75MM²TPU,(D13/TPE,016.3	Cable color: black/orange/green optional

Type2 To Type1

Electrical Performance

- Rated current:16A/32A/40
- Operation voitage:110V/240V
- I nsulation resistance:>500MQ(DC500V
- Contact Resistance:0.5mQ Max
- Terminal temperature rise:<50K
- Withstand voltage:2000V

Mechanical Properties

# Cloud Platform

Dedicated to enabling the future of e-Mobility by providing the most open, secure and robust charging network anywhere. A charging platform based on the cloud server makes it simple for charger owners to operate and customize chargers to meet their specific requirements. We provide everything you need to offer a complete EV charging solution.

- ▶ **Management System:** A central system for charger operators manage charge points an monitor charging service. Status monitor, charger record, price management, firmware upgrade, remote diagnose, and load balance are offered in one capable system.
- ▶ **Mobile App:** A charging App for EV drivers who needs charging service. Price, locations, availability, start/stop charging, and auto billing are available in an easy way.
- ▶ **Interoperability:** Connections while e-Mobility Service Providers who have EV drivers as customers are viable through the open charge point inter face protocol(OCPI)

# Mobile App

The charging App connects EV drivers with charging stations, so that they can easily find a charger and enjoy the charging service. It enables users to do location search, charging monitor and payment settlement. All is done in a mobile phone.

**Account Signup**  
Easy signup with a mobile phone number

**Location Search**  
Quick search for available charging faacilities

**Charging Operation**  
Friendly interface and convenient operation

**Real Time Monitor**  
Real time presentation of charging consumption

**Cashless Payment**  
Mobile payment from credit card, like Nets, PayWay

**Auto Billing**  
Secure billing through registered account

App Store

Google Play

1 Download the App and sign up an account.

2 Plug the charging cable into EV.

3 Scan QR code to start charging.

4 Stop charging in the App and settle payment automatically.

Project Cases
